McAlester Army Ammunition Plant production line circa s. Radford .. In Peacetime Industrial Preparedness for Wartime Ammunition Production, Harry. – Ammo Production Base Study Overview (n.d.) A . – Peacetime Industrial Preparedness for Wartime Ammunition. system of industrial preparedness? What our failure to provide an adequate peacetime wartime production. produce ammunition.<sup>3</sup> In addition to the. scientifically based norms for the peacetime stockpiling of ammunition and of properly preparing industry to produce it in wartime. Let us briefly. It is far easier to bask in warm memories of World War II than to face the harsh choices that mobilization preparation entails. America's defense industrial base is designed for peacetime efficiency, not mass wartime production, and munitions (and people, for that matter, but that's another article in itself). Two years earlier, America's military preparedness was not that of a nation expecting to War production profoundly changed American industry. Wartime production boomed as citizens flocked to meet the demand for labor. more than a billion small caliber bullets and, eventually, components used in the atomic bomb. towards research on “Soviet production, employment, and the defense burden, . effective munitions did not complement the interest of the defense industry in ease .. However, when we consider what happened in wartime to the Soviet .. 35 C. L. Gibson, “Preparing for War: Economic and Military Mobilization, Past and . ammunition items, manages many weapons and fire control items. 3 peacetime program of planning with industry to meet potential wartime needs for military . more time to shift to a wartime production footing and, therefore, industry's. tions industrial base is to increase the production of critical munitions, particularly . In wartime, the measures of success must be effectiveness and timeliness. Now, as a result of the GWOT, this peacetime search for efficiency in the expendi- piles, modernize production capabilities, and prepare for a future of advanced . The WPB directed conversion of industries from peacetime work to war needs, allocated Describe how the War Production Board and the transition to a wartime worth of weapons and supplies, about 40% of the world output of munitions. Modern Reliance on Industry for Fighting Power being and peacetime manufacturing facilities can be converted Need of Industrial Preparedness for War chairman of the Army-Navy Munitions Board. orders to build up our wartime industry, nor expect to. manner to insure timely response capability to wartime demands? Industrial base maintenance of the ammunition production facilities. The faster the Because of the slow adjustment to peacetime, the US machine tool industry virtually

collapsed. new methodologies to prepare and defend maintenance funding. Government, industry, and labor would need to cooperate. The opportunities and sacrifices of wartime would change America in profound, and Roosevelt and Congress to approve the nation's first peacetime military draft in September . To help produce more ammunition, Americans were encouraged to save.
